There is nothing so decerative in its effect as new Wall Paper of a pretty and novel design, or a painted wall, when done in soft tones or rich colorings. The dainty effects I am showing in Wall Hangings, Relief Decorations and Tinted Designs will certainly please the most particular one.

I have the largest and best equipped House Painting establishment in the South, using nothing but pure leads, oils and colors, and employing only the best workmen.

Busy Workmen Are Everywhere, But Tide Seems to Be Westward.

PARK AVENUE APARTMENTS

Homes Going Up in Suburbs. Greater Trolley Line Facilities in Demand.

all of the suburbs, including the city of Manchester and the charming suburb of Forest Hill, come reports of continued building of homes. The stronger tide, however, seems to be tostronger tide, however, seems to be to-wards the extreme western parts of the city, although the builders are busy in every section. A block of detached double apartment houses on Park Ave-nue, by tween Meadow and Allison Streets, now being completed, are or-namental to that section. Thera houses are modern in every respect, and are in all essentials up to date, Messrs. Green & Redd, the agents, have already leased several of them, although they are not just ready for occupancy.

although they are not just ready for occupancy.

Building operations are very active on West Grace Street, Monument Avenue, Allen Avenue and Allison Street, and, in fact, all over Lee District and the West End. The tendency seems to be to extend the building boom west of the Boulevard in the newly annexed territory. On Floyd Avenue, between the Boulevard and the setting sun, a large number of cottages are being erected on wide and deep lots. Most of these developments are on the Westhampton car line. It is a noticeable fact that a good many East Enders are investing and building out there.

Cutting Up Small Farms.

Just beyond the extended corporate

Cutting Up Small Farms.

Just beyond the extended corporate limits on the Floyd Avenue extension several small farms are being cut up into building lots, and these lots are being bought by home-builders. One farm out there, a small one, which sold about twenty years ago for \$15 per acre, has recently been made into lots, and the sales so far are at the rate of \$1,200 per acre—that is, the lot value of the erstwhile acres.

The splendid buildings on Park Avenue mentioned above were erected by Mr. E. F. Poindexter, one of the best known of Richmond contractors. Mr. Poindexter says the building boom is just beginning in Richmond, and he expects to see it grow to greater proportions even before the spring days of next year shall come.

He is taking especial interest in West End development, and thinks it a good sign of the times that people are disposed to build better houses and with more of the modern conveniences than in former years.

In the suburbs the bricklayers and the carpenters are finding a plenty of work to do. Brookland Park, Ginter Park and Barton Heights seem to be vying with each other as to which
